In Costly Houses

the beauty of the wall decorations is not always due to costly materials—it is more often a matter of knowing how to use materials that are of themselves very common. Alabastine produces

beautiful wall decorations because a generous portion of this "know how" was used in its manufacture, and because every one who purchases it can also "know how" to use it to the best advantage.

Alabastine The Sanitary Wall Coating

is more durable, more beautiful, more sanitary and in the long run more economical than any other form of wall covering ever used. And the Alabastine Company, through us, spends more money to help Alabastine purchasers to use Alabastine intelligently, than any other firm ever has. That is why to "Alabastine" your home means to use a simple material, in a simple way, so as to secure effects that are at once artistic and a credit to your good taste. Visit our store early and let us show you what Alabastine is and what it will do.
